## 1-Introduction

---

We have created an online pet community that brings current pet owners, future pet owners, and pets that need homes together in one place. When you create your pet profile you can share your advice and experience with other pet owners and future pet owners.

A portion of every subscription fee is donated directly to the featured pet rescue organizations to help them feed, house, and heal homeless pets. We also strive to provide an environment where new or potential pet owners can learn more about pet care, pet breeds, and get in touch with organizations to help them find the pet that is right for their family.

Our Website happypetstories.com is based in a very popular content management system (CMS). It is designed with the end user in mind, so everything is pretty straight forward.

In this manual we will quickly explain the way to use the user's interface of our website.

## 2-Objective

---

The objective of the website is very simple:

**“Help Animals in need in any way possible and spread the word so more people can help the cause.”**

We created a community of pet lovers like you, who will help buying our membership for a very low price per year, helping other pet owners in our forum and sharing information on their pets to help motivate more people to adopt pets and take care of them responsibly. With your contribution, we sponsor several pet shelters, giving them in a monthly basis money, food, medicine, supplies and volunteer time to help pets in need. Besides, we publish their pets needing to be adopted in our website totally free so they can help more pets find the home they need.

If you are reading this manual, it's sure that you already took the first step to help, we thank you for that and encourage you to keep going spreading the word tell of our website to your friends and family members.

**Share Your Story, Save a Life.**

## 3-Understanding the panorama

---

As a user of our website you will need to do some steps before you can take the most of our website.

You will create your membership, pay using paypal, read your email to activate your user, login to our website, complete your user account information and create your pet(s) profile(s).

After that you might want to see some other profiles, read information on dog breeds, and take a look at the pets for adoption to maybe get one or recommend someone you know to do so. You could also participate in the forums answering other user's questions about pets that you might know or you can also ask others things you might want to know about pet care.

Our main goal is that at the end, our section of "success stories" becomes the biggest section of the site containing as many happy pet stories as possible, giving the motivation needed to more pet owners to adopt pets and care them responsibly. We want to show the whole pet lover community that every little help counts and if you think of helping, you can help, therefore more pets will be saved.

## 8-Recommendations to help this cause

### A) **Have fun in our website!**

Go around all of the sections, learn about other pets like yours, participate in the forums and share with these canines and felines some of your time, we guarantee you will find more interesting things than what you could find in some “celebrities” social pages full of controversy and bad news. These pets are all about happiness!

### B) **Collaborate with the cause more often!**

You can always go by a pet shelter just to say hi to the pets there, to take some food for the pets or to donate your time in any way they might need help.

These institutions have always tons of work and sometime they are very short on personnel, so every grain of sand you can give will help to build the castle.

# HappyPetStories.Com

## C) Share Your Story; Save a Life!

Refer your friends and family to our website and share your pet's profile with all your social media friends and followers. Spreading the word will certainly help us to close the gap between pets in need of adoption and people that will love to have a new pet in their lives.

## 9-Getting involved

---

Do you think you can put some extra time to help the cause and make some extra dollars during the process?

That is possible too. We want to make this cause as big as possible so the most pets can be rescued and helped, that's why we can give you the tools to participate in our program from your local community and we will pay you for helping us.

You can use your spread time and your online social media friends and family to help the cause and make some profit on the way. To become an affiliate to our website, just visit our affiliate area <http://happypetstories.com/affiliates/conversions> and create an account.
